It does *not* mean we are booked for the next few months, it just means we are waiting on more vaccine. Dates are only opened 1-2 weeks at a time for now which is why all other weeks are grayed out. Please be patient with us during this busy time.

8. **After you click on a date and time, fill in the information requested. Be sure to hit "finalize."**

Make sure you type a valid email & get a confirmation email after you schedule. If you did not, it is likely that your appointment was not scheduled.
